

Guidelines for Research Title Defense

1. Submission Requirements

- Digital slide presentation (**PDF or PowerPoint**) submitted via Google Drive by the deadline (**July 13, 2026**).
- Each group must prepare **two (2) distinct research titles** (with corresponding slide decks). If their primary choice is rejected by the panel, they must immediately pivot to the secondary option.
- **Slide Structure (Per Presentation):**
 - **Slide 1:** Working Title (must be specific, measurable, and clearly state variables).
 - **Slide 2:** Rationale (Gap in the literature/real-world problem justifying the study).
 - **Slide 3:** Statement of the Problem (General objective + 3 specific questions).
 - **Slide 4:** Theoretical Framework (Name of theory and how it directly anchors the study).
 - **Slide 5-10:** Related Literature (3–5 key studies or concepts with citations).

2. Defense Logistics

- **Presentation Time:** 3–5 minutes per title.
- **(Q&A):** 5 minutes per title.
- Approximately 16–20 minutes per group (inclusive of switching between titles).

Rubrics for Assessment

Part A: Slide Presentation

Weight: 40%

Criteria	4 (Exemplary)	3 (Satisfactory)	2 (Developing)	1 (Beginning)
Clarity & Focus	Title is highly specific and clearly identifies variables.	Title is specific and identifies variables.	Title is broad; variables are implied.	Title is vague; lacks focus.
Academic Rigor	Rationale and Theory are highly relevant and well-justified.	Rationale and Theory are relevant.	Theory is present but weakly linked.	Rationale/Theory are missing or irrelevant.

Literature	3–5 high-quality, relevant sources are properly cited.	3–5 relevant sources are cited.	Fewer than 3 sources or weak relevance.	No literature provided.
Visual Design	Minimalist, professional, and free of grammatical errors.	Clean layout; minimal text; readable.	Slightly cluttered; minor errors.	Too much text; illegible.

Part B: Presentation Performance

Weight: 60%

Criteria	4 (Exemplary)	3 (Satisfactory)	2 (Developing)	1 (Beginning)
Delivery	Fluent, confident, and stays within time limits.	Clear and mostly within time limits.	Rushed or hesitant; went over time.	Disorganized; significantly off-time.
Defense/Q&A	Answers are evidence-based, logical, and insightful.	Answers are accurate and relevant.	Answers are vague or incomplete.	Unable to defend the study.
Collaboration	All members participate equally and are knowledgeable.	Most members participate; knowledge is shared.	Only one or two members participate.	Lack of cohesion; unprepared.
